

# WD100

## Wearable Mobile Computer

Get going and go hands-free with the Unitech WD100. This versatile mobile computer can be worn in different ways to increase productivity and leave your hands unencumbered for other tasks.

A large 4" screen gives you plenty of space to work with, while the integrated camera lens is ideally positioned to the side for photo taking or barcode scanning.

The WD100 suits a number of applications and verticals such as warehousing, retail, asset management, and event ticketing.
