Fixed Assets

Collect . Track . Manage .

Overview

The IntelliTrack Fixed Assets software is designed to be used with portable barcode readers to provide a complete turnkey solution to manage assets (portable data terminals are not include with the Fixed Assets software and must be purchased separately.) IntelliTrack

modules are written with Microsoft® Access XP and include the source code to customize the Fixed Assets system for specific needs.

The IntelliTrack Fixed Assets portable software enables the portable barcode reader to collect inventory data automatically. IntelliTrack Fixed Assets provides for the collection and storage of user ID, asset number, location, status and even manufacturer, model and serial number if required, all with the accuracy, speed, and simplicity of barcodes.

The IntelliTrack Fixed Assets software includes a PC compatible ready to run SQL Server to manage Fixed Assets data. The IntelliTrack Fixed Assets database includes standard reports, gueries, and barcode label printing capabilities. With the Access user-friendly interface, the user can easily customize a database.
