IntelliTrack WMS Warehouse Management Solution

Collect . Track . Manage .

IntelliTrack

Overview

The IntelliTrack WMS software is a reliable, affordable, and easy-to-use warehouse management solution available in both batch and real-time radio frequency(RF) versions. Benefits of the IntelliTrack WMS system include improved inventory accuracy, increased labor productivity, and better customer service.

IntelliTrack WMS includes advanced warehouse management capabilities, including directed picking and put-away, cubing, wave management, and crossdocking.

IntelliTrack WMS was designed with scalability in mind. Microsoft® SQL Server support means that you can comfortably handle hundreds of users and tens of thousands of SKU's with excellent response time. IntelliTrack® WMS was developed with the latest Microsoft® development tools, assuring compatibility with most any system.

By combining IntelliTrack WMS with an RF terminal, you create a complete low-cost, real-time warehouse management system.

With thousands of IntelliTrack installations world wide, you can be assured of solid performance and reliability. IntelliTrack WMS is an ideal solution for warehouse operations in manufacturing, distribution, retail, government, and healthcare.

- -Kitting

Standard RF (includes

Standard Batch features) -Terminal Messaging -RF Portable Application

Professional (includes

Standard Batch & RF features) -Directed Pick & Put-Away -Pallet Tracking -Basic Cubing -Replenishment

Barcode Printing:

Integrated barcode printing allows you to label your inventory and locations quickly and easily based on the data contained in your IntelliTrack application. Portable data terminal support and barcode labels maximize data accuracy and efficiency when collecting inventory information.

Easy to Use:

IntelliTrack is a user-friendly Windows[®] application. Easy menu navigation allows you to quickly perform common inventory tasks. Because it is a Windows[®] application, IntelliTrack's user interface will be familiar to anyone who is accustomed to working in this environment

IntelliTrack WMS speaks the language of the user. At its fundamental core, WMS contains a multi level data dictionary to display all text on forms and reports. This feature allows a user to configure any text in forms, PDA/PDT prompts, queries, reports and error messages to conform to its in-house terminology.
